Thank you for visiting!

The Friends of the Tanger Arboretum, a subsidiary organization of LancasterHistory, helps foster public interest in, and support for, the maintenance and development of the Tanger Arboretum as a community asset.

HISTORY

The Louise Arnold Tanger Arboretum *(pronounced "tan' -jer")* on the grounds of LancasterHistory was designed by Gustaf Malmborg of Manheim, PA. When the Willson Memorial Building was constructed in 1956, neighbor and naturalist Louise Arnold Tanger offered to plant trees on the barren grounds surrounding the building. Mrs. Tanger joined the Board of then Lancaster County Historical Society, now LancasterHistory, where she took charge of the grounds until her death in 1959. Her son Charles took her place and served as the historical society's naturalist for many years until his death in 1991. Following Charles Tanger's death, the Board established a group known as **The Friends of the Tanger Arboretum** to care for the Arboretum.
